CLOSING RATES

Vesterday of cotton and gold: Liverpool coton, 6 9-16d. Memphis cotton, -. New Friends cotton, 9 7-Sc. New York cotton. 10 7-8c. New York gold, 100 3-8.

THE Howard Association yesterday reported 85 new cases. Forty-nine deathwere reported by the Board of Health, o which number 11 were colored and 38 white This makes a total of cases to date, 5,704.

ACCORDING to Mr. J. H. Chine, acting observer, the thermometer at 7 a.m. vester tay registered 64 degrees, with the win northeast. At 2 p.m., 73 degrees, with the wind south, and at 9 p.m., 73 degrees with the wind from the southeast, and fair.

On our second rage, to-day, will be found u great deal of local matter in relation to the rogress and present condition of the epidemic in the city, as well as personal para graphs, of interest to our citizens absent and present. For the accounts of the ravages of astppi, we are indebted to many friends, a continuation of whose favors is earnestly re-

Dr. PAUL OTEY, died of yellow-fever at Mr. W. J. P. Doyle's residence, on Dunlap street, at a fate hour yesterday afternoon. He had been sick for over a week, and it was hoped would rally from the effects of the disease he oured in others so often, but his strength was not equal to the task. Dr. Otey was the cluent son of the late Rt. Rev. James H. Otey first Epigeonal bishop of Tennesson Otey, first Episcopal bishop of Tennesseee, otey, first Episcopal bishop of Tennesseee, and was educated at Gambier college, Ohio, President Hayes being among his classmates. Intended for the ministry, he preferred medicine, and studied for that profession with much of the ardor of a lover. As such, he followed it, attaining, both in the Confeder. followed it, attaining, both in the Confederhved since its close, an envisble distinction.

although by his own preference his practice was limited. A close student, he held many was limited. A close student, he held many views that did not square with prevalent To the Liverpool Committee: notions. These, when called upon, he defended with ability and a tenacity that his that they have sufficient funds for their obopponents admired, however much they disagreed with him. He was a man of strong mind but good heart. To him the people of Memphis are indebted for the camps which, while affording abelian abeliance when the formula of their object, but as there are so many of our country men requiring assistance whom the Howards cannot relieve, we hereby trust steps may be taken to renew subscriptions for relief.

HENRY E. STRINGER, Her Britannic Majesty's Acting Consul. while affording shelter and comfort to seven thousand refugees, insured them the health denied them at home. From the outbreak of the organism to the company of the consultant of the produce of the company of the consultant of the produce of the consultant of the the epidemic he was active in behalf of the nurses. His sympathies were fully aroused K. F. KLUMPP, Danish Consul. he never ceased to interest himself in behalf of the people. By a few who understood date prior to September 25th. No new cases and appreciated him his death will be mourned as a personal calamity, and the public, quick to overlook eccentricities of habit, thought or conviction, will forget whatever of these cropped out in him and hold him in affectionate remembrance as a physician who never wearied of well-doing.

date prior to September 25th. No new cases reported up to non Charity hospital to-day. Of one hundred and fifty-nine cases reported up to noon to-day, sixty-five date prior to the twenty-fifth. One physician reported twenty-fifth. One physician reported twenty-fifth. One physician gas far back as September 28.—Thirty new cases and eleven deaths. Misses Lucy for twenty-fifth. Louisville Medical News: "On the fifth of August the first case of yellow-fever was discovered in this city, and up to this period there have been between seventy and eighty cases. Sixty-two have been registered at the yellow-fever hospital. Sixteen of these cases have died, and nine have been decided cases in the hospital, three or four of which most probably will succumb. A case here and there has died in a hotel or private house. In every instance the disease is of, foreign origin. No case of yellow-fever has originated in Louisville. We have visited the yellow-fever hospital, by invitation, on three occasions, the Yellow-Fever in Louisville. case of vellow-fever has originated in Louis ville. We have visited the yellow-fever hospital, by invitation, on three occasions, the last visit being made this afternon (September 18th). In going through the wards, we were greatly impressed by the remarkable discrepancy between the pulse and temperature in the severe cases. With one or two exceptions the pulse was about seventy to eighty, while the temperature was one hundred and three degrees. The pulse in all cases was large, soft and weak, as though the vessel was more than of normal caliber, but only partially filled. The tongue was red in most cases, coated and of different colors in different patients. It was pulse and flabby—mal strid—in none. Most of the sick had duelty skins, and three or four were decidedly yellow. From Dr. Marvin, the obliging resident physician, we learned that there was no uniformity as to pulse or temperature, both varying in different cases and in different periods of the disease, and the same is true of the tongue. Dr. Marvin states that over fifty per cent. of the cases have had the black vomit, and the majority became yellow skinsed sconer or later. The have had the black vomit, and the majority became yellow skinned sooner or later. The bowels are generally loose, and the disbowels are generally loose, and the discharges very offensive. The evacuations are in some cases bilious, in others bloody, and in others coffee ground material. In all the bad cases a hemorrhagic tendency is observed. Cerebral symptoms come on in the served. Cerebral symptoms come on in the hississippi river with supplies of ice, and the discharges very offensive. The evacuations are discharged by the evacuations are discharged by the supplies of ice, and the discharged by the supplies of ice, and the discharged by the evacuations are discharged by the evacuations are discharged by the supplies of ice, and the supplies by the supplies of ice, and the supplies b majority of cases. Albumen has been found in the urine in every case, mild or severe, but sometimes not till the fifth day."

the expression, the "forty-fifth amendment," that he intended to cast some reflection on the several actions of the board. I feel that it is my duty to write to you and ask you to CAIRO, ILL., September 28.—But one death at Hickman, Kentucky—Nelson Letus, the faithful night superintendent of the hospital. No new cases in town, but several in the country, near Hickman. Total cases at Martin, Tennessee, twenty-eight. No new cases or deaths to-day. Dr. Hugh Prather, of Hickman, died of yellow-fever at Jordan Station, Kentucky, last night.

it is my duty to write to you and ask you to give publicity to our motives for so acting. We have, as a board of health, appointed by the proper legal authority, been acting for the welfare of the citizens of this town and vicinity. The disease this year has proven to be very contagious. Such being the case, we have labored with all diligence to keep it from reaching us. So far our observation extends, the disease has not yet passed over over its deaths, three now considered critical, four able to be about, three able to leave their bed and ten more or less sick. pital. No new cases in town, but several in the country, near Hickman. Total cases at Martin, Tennessee, twenty-eight. No new cases or deaths to-day. Dr. Hugh Prather, of Hickman, died of yellow-fever at Jordan Station, Kentucky, last night.

Water Valley. Miss.

Special to the Appeal.]

Water Valley. September 27.—Things look more gloomy. Two deaths to-day, and six new cases were reported by Dr. Dickson. The fever seems to be almost as fatal with the negroes as it is among the whites. The places, believing that it would protect us from the ravages of the prevailing epidemic which is at this time and has been for so many weeks, depopulating cities and towns all over the country. I have no doubt that Holly Springs, Hernando, Brownsville, and a host of other places now suffering with the plague, would have been in a healthy condition, ten miles west of Paris, is quarballed, but that village has the fever. Fort and Georgie Featherstone, Selden Fant, treasurer relief committee, and Charles H. Walker, of Hartford Conn., are very low, and there is but little hopes of their rocovery.

Grand Junction, Tenn.

Grand Junction, September 28.—No deaths in the past twenty four hours, but six new cases. Total cases about ninety: deaths, forty-five. C. G. Hardy, a volunteer telegraph operator from New Albany, Indiana, was taken down with the fever yesterday.

plague, would have been in a healthy condition in the same precaution in they had only taken the same precaution in time. We have escaped so far, for which we offer our heartfelt thanks to the Disposer of all human events, and at the same time pray that we may continue to escape. But as we are nowhere promised a blessing, except in the use of means, we are determined to keep up our quarantine regulations at all hazards. But while we have been trying to protect ourselves, we have not been unmindful of the necessities of the same time pray that we may continue to escape. But as we are nowhere promised a blessing, except in the use of means, we are determined to keep up our quarantine regulations at all hazards. But while we have been trying to protect ourselves, we have not been unmindful of the necessities of the fever. A Mrs. Manly is down with it there, and a servant woman in her employ, is also down with the same. John Nance, of Paris, was taken sick there, in Mrs. Manly's house. He was removed to Paris in two days after his taking down, but still the insidious monster left its fatal seed in the family, and Mrs. Manly and her servant are the first victims.

Total from fevers, 32; other causes, 19. The outlook grows more favorable, Deaths in the last twenty-four hours are as follows: BOACH-September 26, 1878, on Union avenue, and that a correspondent writes from our little town about some of our best citizens, which was not necessary. He had no room to cut on the last twenty-four hours are as follows: B. F. Ragsdale, agent E. T. railroad; E. H. Robinson, Rev. Father P. Ryan, Rev. G. H. which Miss Sallie E. Reneau wrote to the Stanton since the year 1860, and I have

IN MEMORIAM.

more proteins tempression upon a community.

congrous, brave and true, is was the fdol of a
widowed mother and the pride of a large chiefe of
friends, who will unite with the family in sorrow at his death and in perpetuating in their memory his dread disease, and, after nine days illness, sur-rounded by a few faithful friends and relatives, who be stowed upon him every possible care and attention, at the hour of midnight his spirit passed away. Death's ley tongue had whisper'd in his ear The unknown language of another world. All, all was over!"

All, all was over?

His gratitude to those who ministered to hist knew no bounds; often did be say, "God bless you? It was also a source of great comfort to him that the one for whose sake he had encountered the dangers of the pestilence, was enabled to recover sufficiently to reach him ere his soul took its flight. Leaving the bedside of an aged mother, she hastened to his side to render the last sad offices of affection, receiving his dying messages of love and remembrance, and soothing his departing moment.

To his bereaved mother and brother, now absent in a distant city, and who were kept in ignorance of his illness, we offer our most sincere and heartfelt sympathy for the loss they have sustained in the death of such a son and brother, and pray that "He who doeth all things well" may teach them to bow in humble resignation to the decrees of an All-wise Providence.

Providence.
"The Lord gave and the Lord hath taken away
blessed be the name of the Lord!"

Louisville and St. Louis. Letters addressed to us at

leave here to correct the statement made by in the gentleman with regard to the same, as I am satisfied he has been misinformed by some one who is not familiar with the real stuation of things in our town and vicinity. We have had but three cases of yellowing Mr. Caruthers, who came here from Memphis with the disease, and who has long since recovered; and the second was our lamented young friend James D. Calhoun, a resident, who died a few days since; and thirdly, and lastly, Captain John Ash, who came to Stanton from Brownsville some days past to nurse Mr. Calhoun during his last illness, and was taken sick that night with a very mild form of the fever, and who, as I am informed by his attending physician, is doing very well indeed. Now, in conclusion, I will state that we have no fear whatever of the disease becoming an epidemic here, and, I will also say, for the benefit of all concerned, that I have been a resident of State or of State board of physicians, and chief surgeon of artiliery of A. P. Hill's corps, after great expertence of the prevailing epidemic.

HORSLEY—September 25, 1878, of yellow-fever, Mss. Beulan Horsland This mass will be sent free to reliow-few sufferers who are unable to pay for it, and trial su-ply will be sent without charge to physicianaidesi-ing to test it in their practice.

Med, on the seventeenth of September, at the residence of his mother, near Horn Lake, Mississippi, Ronker Naison Morn, aged twenty years and six months.

Seldom has the announcement of a death made a many noble and manly qualities. One of the simplest, yet at the same time, most forcible tributes to his general character, was the remark of a mere inclusionance. "He had not an enemy in the world!" What, then, must his friends had felt who knew him intimately? Braving the terrors of the shad pestilence which now ravages our fair city, he hastened o the bedside of a loved relative thought to b cy'ng first entering other infected rooms in order to remove all scruples against being admitted. His unselfish devotion proved fatal to his young life, for, after returning to his home, he was attacked by the
